

# Petit Clocher du Portalet

## Information Notice for Climbers

In order to protect wildlife, camping and bivouacking are **strongly discouraged in the pink zone**. This measure aims to preserve the natural balance and reduce disturbances to animals.

On the other hand, **specially designated areas** for bivouacking, with access to water, are available in the **orange zones**. We encourage climbers and campers to use these spots in order to help preserve the natural environment.

Thank you all for your **understanding and cooperation**.

⚠️ **Camping and bivouacking strongly discouraged in the pink zone: let's protect wildlife!** 🙏

✅ **Bivouacking possible in the orange zone: designated areas with water nearby.** 🏕️
